PetroSkills

Greenhouse Gas Emissions Reporting Requirements

MODULE

About the Skill Module

This skill module discusses greenhouse gas (GHG) emissions reporting requirements and their context. Disclosure requirements might include mandatory or voluntary obligations imposed by governments, regulatory bodies, or industry standards that compel organizations to disclose GHG data. Reporting GHG emissions with veracity and transparency is fundamental to an organization's integrity and reputation.

See demo online learning module

Target Audience

Anyone wanting to commence their learning or to further consolidate their fundamental knowledge and competence with regard to Greenhouse Gas
