

## Existing Power Generation Technologies with Alternative Energies

### MODULE

#### About the Skill Module

This skill module covers the following topics:

- Coal, Oil, Gas – Traditional Power Generation, Integrated Gas Turbine Combined Cycle
- Hydroelectric – Nuclear Power Generation, Generation I, II, III, IV
- Nuclear Safety
- Geothermal
- Ocean – Mechanical, Thermal

See demo online learning module

#### Target Audience

This course is useful for senior and middle management and for anyone involved in the integration of low carbon power generation technologies into existing and future infrastructure.

#### You Will Learn

You will learn how to:

- List the various power production alternatives
- Describe traditional power generation techniques
- Describe turbines and boilers
- Describe waste heat recovery processes

## Product Details

Categories: Energy Transition

Disciplines: Net Zero & Renewables Multi-Discipline Training

Levels: Basic

Product Type: Individual Skill Module

Format: On-Demand

Duration: 2 hours (approx.)

**\$250.00**
