

## **Formation Testing**

#### MODULE

#### **About the Skill Module**

This skill module is designed to teach the fundamental aspects of formation testing; increase familiarity with basic formation testing applications; increase understanding of the objectives, techniques, and equipment associated with reservoir fluid sampling; and explicate the role formation testing plays in assessing formation producibility.

See example online learning module

## **Target Audience**

Production Operations Staff, Reservoir Engineers, Facilities Staff Drilling and Completion Engineers, Geoscientists, Field Supervisors and Managers, Field Technicians, Service Company Engineers and Managers.

# You Will Learn

Participants will learn how to:

- The basics of formation testing, including important terms and concepts
- · The specifics of formation testing applications
- How reservoir fluid sampling is conducted
- · The role of formation testing for producibility

#### **Product Details**

Categories: <u>Upstream</u>

Disciplines: Petrophysics

Levels: Basic

Product Type: Individual Skill Module

Format: On-Demand

Duration: 4 hours (approx.)

\$395.00
