

Hydrogen Production

MODULE

About the Skill Module

This skill module covers the following topics:

- Hydrogen production overview
- Steam methane reforming
- Electrolysis
- Other methods of Hydrogen production

See demo online learning module

Target Audience

Anyone interested in an awareness of what Hydrogen is and how it can be used in various industries to assist in the energy transition to a lower carbon-emitting future.

You Will Learn

- The various methods of hydrogen production
- The colors of Hydrogen Production and what they mean
- Benefits and drawbacks of different production methods
- The Balance of Plant systems required to operate an Electrolyzer

Product Details

Categories: [Energy Transition](#)

Disciplines: [Hydrogen](#) [Net Zero & Renewables](#)

Levels: [Basic](#)

Product Type: Individual Skill Module

Format: On-Demand

Duration: 2 hours (approx.)

\$250.00
