

## Depth Conversion Fundamentals

### MODULE

#### About the Skill Module

The intent of this module is to explain the fundamentals needed to convert time to depth in seismic interpretation.

**Target Audience**

Geologists, geophysicists, and engineers who want to use seismic data for petroleum exploration and/or production. Familiarity with geological terminology will be helpful.

**You Will Learn**

- The different types of velocities used to convert to depth
- Factors that can affect depth conversion
- Skills needed to convert time to depth
- How time-to-depth conversions are done on a workstation

**Product Details**

Categories: [Upstream](#)

Disciplines: [Geophysics](#)

Levels: [Foundation](#)

Product Type: Individual Skill Module

Format: On-Demand

Duration: 4 hours (approx.)

**\$795.00**
