

# **Reservoir Fluid**

# MODULE

## About the Skill Module

This skill module reviews fluid properties at the most basic competency level.

See demo online learning module

# **Target Audience**

Engineers or geoscientists who will occupy the position of reservoir engineer, and any other technically trained individual who desires a more in-depth foundation in reservoir engineering.

# You Will Learn

Participants will learn how to:

- Describe how fluids change in response to changes in pressure and temperature
- Define the engineering properties of reservoir fluids
- Describe the make-up of reservoir fluids
- Describe how fluids are sampled
- Describe how fluid properties are measured in the laboratory

#### **Product Details**

Categories: <u>Upstream</u> Disciplines: <u>Reservoir Engineering</u> Levels: <u>Basic</u> Product Type: Individual Skill Module Format: On-Demand Duration: 4 hours (approx.)
